

The CO-OP Search Widget provides your members with access to nearly 30,000 surcharge-free ATMs and more than 5,000 Shared Branching locations. The CO-OP Search Widget allows you to set up a small "search box" on your credit union website for members to submit CO-OP location searches to the CO-OP website locator. Your members can enter in their zip code and they will be taken to the CO-OP locator website to view their search results. No API key or detailed programming is required. Simply add the HTML to the credit union website page that you want to display the search widget on.

Instructions to Install CO-OP Search Widget:

1. Review the four CO-OP Search Widget options available on the CO-OP website. Choose one.
2. Click on the chosen widget to view the "Code Page". Copy the code from <!--START of code --> through <!-- END of code --> and place it inside a div on the page of your website where you want the search box to appear.
